

NHMRC's Rising Star Research Excellence Award recognises top-ranked Indigenous researchers in the Early Career Fellowship scheme

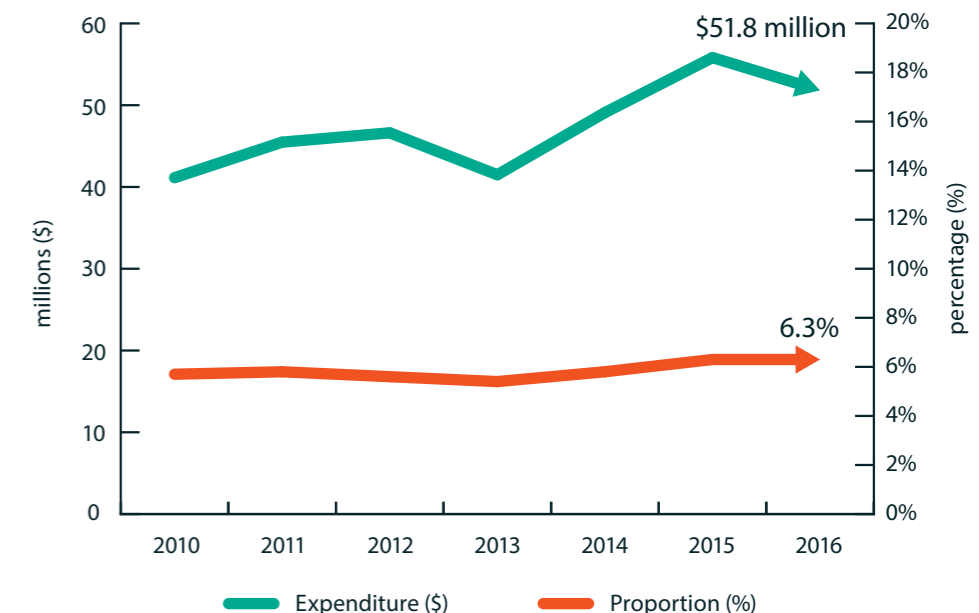

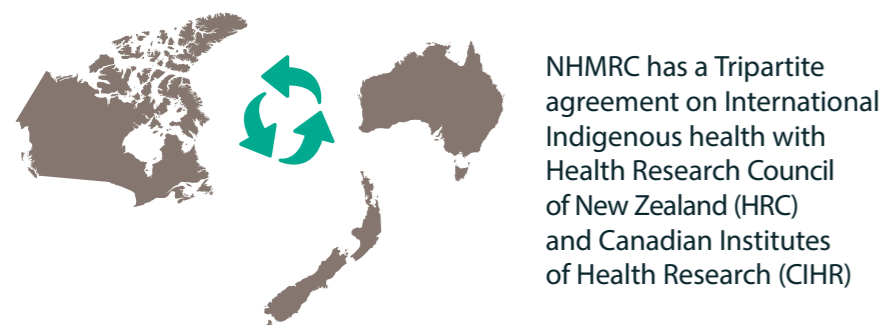

Expenditure and number of grants in Indigenous health research by broad research area

Expenditure and number of grants in Indigenous health research by state

Expenditure and number of grants in Indigenous health research by funding sector

Expenditure on Indigenous health research

Since 2008 NHMRC's target of 5% funding for Indigenous health research has been met and exceeded

Notes:  
1. Indigenous refers to Aboriginal and Torres Strait Islander peoples in the figures above  
2. Expenditure on NHMRC grants is drawn from the Medical Research Endowment Account (MREA)  
3. Research includes both health and medical research.
