NHMRC's expert working committees: Development of the *Australian code* for the care and use of animals for scientific purposes

This document provides information about the membership of the National Health and Medical Research Council's expert working committees that provided advice about development of the 8th edition of the *Australian code for the care and use of animals for scientific purposes* (the Code) and the 2021 update to the 8th edition of the Code. The expert working committees were established under section 39 of the *National Health and Medical Research Council Act 1992* (NHMRC Act).

Disclosures of interests for members of all committees were managed in accordance with the requirements of the NHMRC Act and NHMRC's *Policy on the disclosure of interest requirements for prospective and appointed NHMRC committee members*. A record of interests was maintained by NHMRC, and relevant information was made publicly available on the NHMRC website to ensure transparency.

8th edition, 2013

Information about the expert working committees that provided advice on the development of the 8th edition of the Code is outlined in Tables 1, 2 and 3 below. Details are provided about only those individuals who granted permission for publication.

Details in Tables 1-3 are correct as at 25 September 2013.
