## Translating Research Into Practice (TRIP) Fellowships for funding commencing in 2015

The Translating Research Into Practice (TRIP) Fellowship Scheme is a targeted award intended to build capacity in research translation by providing support for health care professionals, health care and health systems personnel, health researchers and health policy makers to undertake projects focussed on translating evidence into practice that will improve health care and public health. The TRIP Fellowship is a part-time award (0.5FTE) which allows individuals to conduct a research translation project effectively in combination with their career.

This year NHMRC received 20 TRIP Fellowship applications of which 10 have been awarded funding.

The applications listed below were approved for funding by the Minister for Health, the Hon Peter Dutton MP.

<b>Application ID</b>	<b>Applicant Name</b>	<b>Application Title</b>	<b>Administering Institution</b>	<b>Budget</b>
1090122	Dr Roslyn Giglia	Evaluating the evidence-practice gap between the NHMRC alcohol and breastfeeding guideline (2009), clinician application and maternal uptake	Curtin University of Technology	\$172,911
1090198	Dr Claudia Dobler	Improving evidence-based treatment of latent tuberculosis infection in public-hospital based chest clinics	University of Sydney	\$172,911
