

Translating Research into Practice (TRIP) Fellowships Recommended For Funding Commencing in 2019

About the Scheme

The TRIP Fellowships scheme is a two-year part-time Fellowship providing protected time to support future leaders to implement established evidence into practice.

The specific objectives of the scheme are to:

- build capacity in research translation by supporting future leaders to undertake projects focused on translating robust or best-available evidence into practice that will either have localised health benefits to patients or broader and deeper impacts on health care, the health system, public health, national policy, and/or service delivery
- create a critical mass of experts in the area of research translation to support and sustain change in the long term.

The applications listed in the table below have been approved for funding by the Minister for Health, the Hon Greg Hunt MP.

App ID	Chief Investigators' Names	Application Title	Administering Institution	Budget \$
APP1167938	Doctor Phillip Tully	Optimising care and enhancing outcomes for comorbid depression and coronary heart disease with collaborative care.	University of Adelaide	\$181,066.00
APP1167992	Doctor Christopher Freeman	Translating medication optimisation evidence into practice to reduce hospital readmissions.	University of Queensland	\$181,066.00
APP1168018	Doctor Bernice Redley	Implementing best evidence for nurse led strategies to prevent harms common to older people in acute hospitals.	Deakin University	\$181,066.00
APP1168022	Doctor Andre Schultz	Ensuring optimal treatment for Aboriginal children with chronic wet cough.	University of Western Australia	\$181,066.00

App ID	Chief Investigators' Names	Application Title	Administering Institution	Budget \$
APP1168185	Doctor Yuanyuan Wang	HeLP-knee (Healthy Lifestyle Program for knee pain prevention) - a sustainable low-intensity self-management lifestyle intervention for reducing the burden of knee pain in the community.	Monash University	\$181,066.00
APP1168274	Doctor Leanne Hassett	Implementation of physical activity counselling within NSW Health physiotherapy services: a cluster randomised controlled trial.	University of Sydney	\$181,066.00
APP1168295	Associate Professor Anne Abbott	Improving prevention of stroke and other arterial disease complications by closing evidence-practice gaps.	Monash University	\$181,066.00
APP1168333	Associate Professor Julie Brimblecombe	Reducing the burden of disease and inequity through building a food system that supports healthy eating in remote Indigenous Australian communities.	Monash University	\$181,066.00
APP1168393	Doctor Nicholas Medland	Closing the evidence-practice gap in early HIV treatment initiation with a national audit-feedback and clinician support program.	University of New South Wales	\$181,066.00
APP1168483	Doctor Catherine Huggins	Implementation of earlier evidence-based nutrition for people with upper gastrointestinal cancer.	Monash University	\$181,066.00

App ID	Chief Investigators' Names	Application Title	Administering Institution	Budget \$
APP1168541	Doctor Christina Marel	Personalised healthcare for heroin dependence: Optimising the application of evidence into practice through implementation of an online clinical decision-making tool (HART).	University of New South Wales	\$181,066.00
APP1168749	Doctor Denise O'Connor	Reducing low-value knee arthroscopy in Australia.	Monash University	\$181,066.00
APP1169092	Doctor Joseph Doyle	Improving delivery of hepatitis C treatment to achieve and sustain elimination.	Monash University	\$181,066.00
			Total	\$2,353,858.00
