

## Details of 2015 Translating Research into Practice Fellowships Recommended for Funding Commencing in 2016

The Translating Research Into Practice (TRIP) Fellowship Scheme is a targeted award intended to build capacity in research translation. It provides support for health care professionals and personnel, health systems personnel, health researchers and health policy makers to undertake projects focussed on translating evidence into practice that will improve health care and public health. The TRIP Fellowship is a part-time award (0.5FTE) which allows individuals to conduct a research translation project effectively in combination with their practice.

The applications listed below were approved for funding by the Minister for Health, the Hon Sussan Ley MP.

APP ID	Applicant	Scientific Title	Administering Institution	Budget
1110297	Doctor Kathryn Bowen	TRIP Bowen	Australian National University	\$175,303.00
1110372	Associate Professor Frances Kay-Lambkin	Integrating eHealth technologies into the management of comorbid mental health and substance use problems: The development of an innovative tool to increase clinician capability to bridge the evidence-practice gap	University of New South Wales	\$175,303.00
