Translating Research into Practice Fellowships for funding commencing in 2017

The Translating Research into Practice (TRIP) Fellowship Scheme is a targeted award intended to build capacity in research translation. It provides support for health care professionals and personnel, health systems personnel, health researchers and health policy makers to undertake projects focussed on translating evidence into practice that will improve health care and public health. The TRIP Fellowship is a part-time award (0.5FTE) which allows individuals to conduct a research translation project effectively in combination with their practice.

The applications listed below were approved for funding.

Application ID	Applicant Name	Application Title	Administering Institution	Budget
1132433	Doctor Suzanne Nielsen	Increasing the capacity of community pharmacy for screening, brief intervention and referral for treatment of pharmaceutical opioid use disorders	University of New South Wales	\$177,197
